Sebring-Mwanza Mission Center

Generosity changes lives in many ways and enables mission to happen. This is a real truth of what joint hands in mission can do. In a place where three years ago was nothing, through the generous giving we were able to purchase almost 20 acres of land and build a holistic mission center, known as Sebring-Mwanza Mission Center, witnessing the partnership between the First Sebring Church, in Florida, and the United Methodist Church in Mwanza region of Tanzania.

Alison's House of Hope & The United Methodist Schools

Alison's House of Hope(AHH) is a home for orphaned and vulnerable children. Our goal is to build and equip these children into a better future through education. For that aim we have started the United Methodist Schools, an English medium teaching institution that trains children from the Nursery up to the Primary school levels. Presently we care for 70 children, granting them good education; three meals a day; psychosocial and spiritual care. We are aiming to increase this number and improve our care. Please consider sponsoring a child @ \$30US/month and \$360US/year, Advance #3021923

Together we can!

St. Lazarus United Methodist Hospital

The dream has become reality! In a simple messaging with Pastor David of First Sebring Church, Florida, USA, back in November 2021 we started praying and exchanging thoughts on the need of a health center facility that could assist the children at the mission and the surrounding community. For our surprise in a less than a year a big hospital come into being. This is the tremendous impact of generosity! We are so thankful to Pastor David and all anonymous donors who made this possible . For sure God will reward you abundantly!

Bishop's visit

As shown in the image above, we were blessed by the visit of Bishop Mande Muyombo with his leadership team. We were greatly impressed by his comments and appreciation. To God be the glory indeed! We are now in the process of furnishing and equipment. You are kindly requested to consider your Christmas donation to this life changing project. You can donate through Advance #3021923 at umcmmission.org or by check made out to "Advance GCFA" with the Advance # 3021923 of this project written on the memo line to: Global Ministries/UMCOR P.O. Box 9068 New York, NY 10087-9068

The United Methodist Schools Progress

This year we had our first graduation for the children transiting from the pre-school to primary school, as shown on the pictures above. It was a very joyful experience and a high promotion of our ministry among the community and beyond. A total of 22 children transited from the Nursery School level to the Primary School level. Indeed your generosity makes a great difference in people's lives and in building God's kingdom on earth.

On the image, a widow woman posing for a photo with her child and witnessing the impact of the both the orphanage home and the school in the life of his child. Below children eating with missionary at the dinning hall.

This year we were able to build a security fence for the orphanage home, thank you so much for those who have supported us. We are planning to add one more dormitory next year to accommodate more children in need of our assistance and care. We count on your generosity. Together, yes, we can!
